

We don't hire smart people and tell them what to do.

We hire smart people so they can tell us what to do. (Steve Jobs)

Fullstack Software Engineer (m/f/d) – Join Us in Building the Future of Smart Intralogistics

About Us:

FlowLogiX is a young, fast-growing startup based in Dresden, Germany. Founded in 2019 as a spin-off from TU Dresden, we develop innovative software solutions for automated in-house transport systems. With a passion for technology and a deep understanding of logistics, we're tackling the challenges of digitalization, IoT, Industry 4.0, and AI – all within the world of intralogistics.

Who We're Looking For:

We're hiring a **Fullstack Software Engineer (m/f/d)** to join us full-time and help develop the next generation of logistics technology. You'll contribute to both product and customer projects – depending on your interests and strengths.

Your Responsibilities:

- Develop modern web and backend applications using technologies such as **Java, C#, Angular, React, or TypeScript**
- Help shape our simulation and monitoring tools – **from design to deployment**
- Collaborate closely with customers to understand their needs and translate them into **real-world solutions**
- Work across the **entire software lifecycle**: from concept to implementation, testing, deployment, and optimization

Ready to drive the digital transformation of material handling? We look forward to receiving your application!

We don't hire smart people and tell them what to do.

We hire smart people so they can tell us what to do. (Steve Jobs)

What You Bring:

- Experience with backend technologies such as **Java or C#**
- Familiarity with frontend technologies like **Angular, React, or TypeScript**
- Solid understanding of software architecture and clean, scalable design
- Fluent English (spoken and written); German is a plus but not required
- A structured, self-driven working style and an eye for practical solutions
- Curiosity, initiative, and a drive to build smart, future-oriented software

What You Can Expect:

- **Modern work environment:** Centrally located office, ergonomic workspaces, and your choice of hardware
- **Work your way:** Flexible hours and partial remote work (regular office presence encouraged)
- **Grow with us:** Ongoing coaching, feedback, and development opportunities
- **Exciting tech:** Work with cutting-edge technologies in real-world logistics systems
- **Supportive culture:** Join a collaborative, international team that values initiative and practical thinking
- **Benefits:** Competitive salary, childcare subsidies, company bike
- **Time to recharge:** 30 days of paid vacation and a strong focus on work-life balance

Sounds Like You?

We'd love to hear from you!

Send your application to: Christian Hammel - christian.hammel@flowlogix.de
